- **Ping/Post:** The ping post allows your server to ask if the lead is approved by ABC Leads. All approved leads from the ping/post are able to be sold by ABC leads. This is the reason that we are able to offer a higher commission rate.
- **All Territory:** By sending us all your leads and not checking on territories will result in a lower commission rate because we will buy all leads from you whether we have a buyer or not.
- **Zip Inclusion:** ABC leads will provide the affiliate with a zip code excel file that will represent all the area's that ABC leads wants leads from. This does not mean that every lead in that area will be sold which results in a higher than normal commission rate, but not as high as ping/posted leads.
- *(If you have any questions regarding this process please let us know right away)*
  - All commission rates are negotiable. Please call to discuss.
